

PDPD — The Only Dog That Gives a Damn

Welcome to PDPD, the meme token with heart, teeth, and a tail-wagging mission.

Forget hype without a cause. PDPD isn't just another barking coin — it's a movement powered by community, charity, and chaos (the good kind). Our dog looks innocent, but behind those eyes is a plan to flip the crypto space and help real dogs in the real world.

Total Supply:

444.4 MILLION \$PDPD
We've split the supply with purpose — not just to balance numbers, but to create value and impact.

Technology:

20% — Technology
To support the PDPD team and future growth, because bones don't build themselves.

Dog Charities:

30% — Dog Charities
Giving back to shelters, rescues, and foundations that fight for every stray and paw.

Public Allocation:

40% — Public Allocation
Straight to the community. The real MVPs. The meme warriors. The holders who make it all bark and bite.

Liquidity:

5% — Liquidity Pool
Because liquidity is life. And PDPD is ready to flow.

Burn:

5% — Burn
Fewer tokens. More value. And let's be honest — fire just looks cool.

for Every Transaction:

- 1% = Burn
- 4% = Liquidity
- 4% = Charities
- 1% = Tax

Our Message

If you're here for memes, stay for the mission.
If you're here to earn, earn with meaning.
If you're not here at all... our dog's sign says: GO TO HELL.
